Johannes le Roux. ENTREPRENEUR COACH

Claude for *entrepreneurs.*

3 hours, your laptop, one job you actually hate. You leave with it running.

Reni le Roux

Founder · The Almond Girl

THE JOB YOU NAMED

Replying to website requests about becoming a stockist, sending the price list and brochure, and replying to Meta ads where a customer wants to know about a specific product.

Saturday 22 August 2026 · 10:00 – 13:00

CHIPS · 21 Roodehek Street, Gardens

What you walk out with

6 things, running, on your own machine. Not notes about how you might do it later.

1. **A Project that knows your business**
   Your documents, numbers and standards, in one place that outlives the chat.

2. **Live data**
   Your real email, drive or accounts — not a demo.

3. **One real artefact**
   Built in the room, off your own numbers.

4. **A skill that repeats your process**
   The job you do every month, captured once.

5. **One job running on a schedule**
   The first thing that happens without you.

6. **A 14-day call and a 30-day review**
   Because the room is only a third of it.

BRING

- A laptop and a charger
- One real, messy file from your business — not a tidy example
- Your logo, a couple of photos, an old deck or brochure if you have one
- Claude installed and signed in, with the workshop skill added

> ONE RULE
>
> You won't be asked to write code, open a terminal, or install anything beyond the app itself. If a step ever seems to need it, say so — it means we've taken a wrong turn, not that you've missed something.

The three hours

Roughly a quarter teaching, the rest you, doing it.

TIME		WHAT
10:00	12′	**Setup and triage** Logged in, everything working. Problems solved now, not at 11:30.
10:12	13′	**Name the job** Eight jobs on the board. That list is the spine of the session.
10:25	12′	**Briefing, not prompting** Rewrite your worst prompt as a proper brief. Watch what changes.
10:37	30′	**Build the business brain** A real Project — your documents, your numbers, your standards.
11:07	15′	**Break** The café is downstairs.
11:22	30′	**Point it at real data** Connect your email, drive or accounts. Ask about your own numbers.
11:52	43′	**Delegate the job** Hand over the job you named. Get back something real.
12:35	15′	**Make it repeat** Turn what worked into a skill. Put it on a schedule.
12:50	10′	**Commit and close** One thing you'll do by Friday. We book the 14-day call here.

If you fall behind, get to 11:52. That's the block that makes the day worth it. Everything before it is setup and everything after it is making it repeat — but the middle is where you hand over a real job and get something back.

Briefing, not prompting

The single biggest difference between people who find this underwhelming and people who don't. A prompt asks for a thing. A brief says what you're trying to achieve and hands over what's needed to do it.

THE FIVE PARTS

1. **The job.** What you actually want done, and why it matters.
2. **The context.** Your business, your numbers, your constraints.
3. **The material.** The real file. Not a description of the file.
4. **What good looks like.** How you'd know it was done properly.
5. **The format.** A spreadsheet, a page, a document, an email.

WRITE YOUR WORST PROMPT HERE — THE ONE THAT GAVE YOU A DISAPPOINTING ANSWER.

NOW WRITE IT AS A BRIEF.

A stockist page, and the reply that sends it

Stop attaching a price list and a brochure to every enquiry. One link, always current, opens on a phone in one tap. Then a skill that drafts the reply in your voice with the link already in it.

WHAT IT NEEDS FROM YOU

- Your current price list and brochure
- Your stockist terms — minimums, margins, lead times
- Two or three enquiries you've answered well, so it sounds like you
- A few of the 'when is it back in stock' emails, and roughly when your next batches are due
- Your logo and a couple of product photos

WHAT REPEATS AFTERWARDS

One reply skill in your voice covering both kinds of enquiry — a stockist gets the stockist link, a customer asking about stock gets the availability link and a date. Plus a morning check on who has written in and not heard back.

> **WATCH FOR**
>
> You'll finish before the rest of the room, so we have a second build ready: an availability page for customers. Your plug-in tells people when something is back; it can't tell them WHEN it will be back, which is what they keep emailing to ask. Publish the date and most of those emails stop being sent at all.

NOTES — ASSUMPTIONS, NUMBERS, THINGS TO FIX LATER

Before you leave

Most training evaporates inside a fortnight. This is the page that decides whether yours does.

THE ONE THING I'LL DO BY FRIDAY

WHAT I BUILT TODAY, AND WHERE IT LIVES

WHAT I'D BUILD NEXT, IF THIS WORKS

WHAT HAPPENS NOW

- **Day 1** — your asset pack: Project template, the skill you built, my prompt library
- **Day 14** — a 60-minute group call. One win and one blocker each. This is the call that decides whether it sticks
- **Day 30** — a written review: what's working, what isn't, what's next

STUCK BETWEEN NOW AND THEN

Tell Claude what happened — it can fix most of it. If it can't, mail me. I'd rather hear about it on the Tuesday than at the 14-day call.
